Sculpt Smart Ceiling Fan with Light

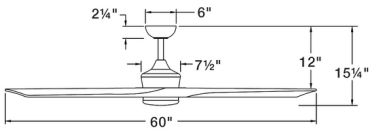

By Hinkley Lighting

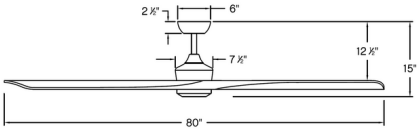

Description

The Sculpt Smart Ceiling Fan with Light defines modern elegance, featuring contoured solid wood blades complemented by the clean lines of the metal housing and etched opal glass light diffuser. The blades are driven by a quiet yet powerful DC motor, and the integrated LED kit casts a soft ambient light. With style and functionality, the Sculpt seamlessly integrates into any contemporary indoor or covered outdoor setting. The included wireless HIRO control provides convenience at your fingertips. Using WiFi and RF technology, it enables motor on/off, 6 speeds, forward and reverse, lights on/off, and warm dimming (dims from 3000K to warmer). It can be wall-mounted or handheld. A face plate and cradles are included, and the remote fits in standard decorative style face plates as well. A manual on/off switch is also included. The Hinkley app offers further control through your smartphone or other device. In addition to the basic functions, the app has timers, breeze mode and other advanced features, and links the fan to smart home systems including Google, Amazon Alexa, and Siri. This smart fan is the perfect solution for your modern lifestyle. A light kit cover is included. Other optional accessories are sold separately. Note: Some blade colors are not available in every size.

Shown in matte black / walnut
