R.O.M.A. Ceiling Light

By Karman

Description

The R.O.M.A. is a gypsum ceiling light that redefines horizons in a textural vortex drawn by light. The central fulcrum ensures direct lighting, and it diffuses on the lamp surface reflected in concentric circles. A collection that bears the name of the Eternal City, evoking the energy of its thousand-year old flows, the organic shapes of squares and fountains, the mouldings on churches and palaces, and the romantic scenes from famous films. By emulating the Latin acronym, R.O.M.A. embodies the city's quintessence (R) romantic, (O) organic, (M) matter-related, and (A) atypical.

Specifications
