Javier Chandelier

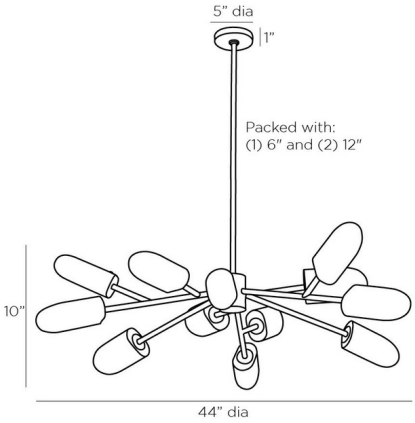

By Arteriors Home

Description

The Javier Chandelier brings bold visual interest to any interior with its dynamic, asymmetrical design. Crafted from iron, its branching arms extend outward in an organic arrangement, each topped with a bullet-shaped crystal shade. A substantial layer of reflective crystal surrounds each bulb, enhancing depth and dimension while beautifully amplifying the fixture's illumination. The result is a striking statement piece that blends contemporary sophistication with sculptural appeal. Additional downrods are available, and sold separately, under sku PIPE-457

Shown in antique brass / champagne crystal
