Heavy Metal Cascade Multi Light Pendant By Buster + Punch

Description

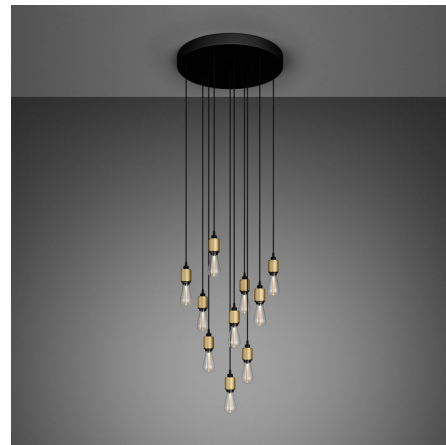

The impressive bespoke Heavy Metal Cascade Chandelier features pendants made from solid metal with B+P's signature cross-knurl pattern. Heavy Metal is powered by exposed LED Buster Bulbs to give a warm and ambient glow. Buster Bulbs are not included; bulb color and style can be selected for maximum customization to fit your space perfectly. **Black:** Made from aluminum and then anodized to give a consistent deep black finish. **Brass:** Made from precision-machined solid brass and finished with two layers of durable satin lacquer. This finish will age slowly, moving from radiant brass to deeper and golden within a few years. **Smoked Bronze:** Smoked Bronze is a living finish, meaning the more you use the product, the more the base brass metal will show through. **Steel:** Made from solid stainless steel and refined by hand. Steel is Buster + Punch's most durable finish and will remain the same for years to come. **Note:** Please specify overall drop length when ordering. Drop length is not field-adjustable.

Specifications
