## VLO 12V LED Mini Wall Wash

By Kichler

### Description

The VLO 12V LED Mini Wall Wash can be utilized on residential properties as either a soft wall wash or high output floodlight. Perfect for lighting up small wide trees, bushes, and scrubs or illuminating open/wide walls such as retaining walls, fences, and environmental structures (rocks walls or tree lines). The VLO Mini Wall Wash fixture is equipped with the Lumen Effects System which allows you to easily switch between four lumen outputs: 150, 300, 450 and 600, with the use of the Magnetic Key. The NEMA 6x5 beam spread produces clean uniform light distribution even when installed close to the application. An integrated cowl and recessed LED offer advanced glare control. Adjustable with a 115 degree vertical rotation. Fixture includes an 8 inch slotted In-ground stake, 2 gel-filled wire nuts, and Magnetic Key to adjust lumen output. Note: Required low voltage transformer sold separately.

### Specifications
