VLO 12V Landscape / Underwater Accent Light

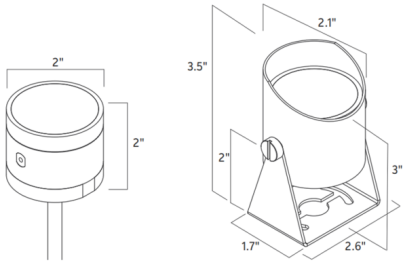

By Kichler

Description

The VLO 12V LED Underwater Accent Light is perfect for use in ponds, fountains, water gardens, docks, streams, and is safe for use with aquatic wildlife and virtually any water additives. Can be fully submerged in a pond, stream, fountain or other water. The VLO Underwater fixture is equipped with the Lumen Effects System which allows you to easily switch between four lumen outputs: 100, 200 and 400, with the use of the Magnetic Key. This 2-in-1 water/accent fixture features an adjustable cowl, and mounting bracket give you the flexibility to install the fixture underwater as a downlight or near a body of water, such as on a patio or pergola, to highlight rocks and foliage. Fixture includes includes 25' of wire lead, detachable cowl, mounting bracket, gel-filled wire connectors, and Magnetic Key to adjust lumen output. Note: Required low voltage transformer sold separately. Optional weighted mounting base sold separately.

Shown in stainless steel / clear
