Stratum Pendant

By Studio M

Description

The Stratum Pendant is composed of a series of thick glass circles layered between discs finished in Natural Aged Brass. The assembly hangs from faux leather straps that hide the electrical wiring, and a concealed LED tube evenly distributes light in all directions while highlighting the curved, offset glass outlines. With this unique design, the Stratum is an eye-catching piece that elevates your lighting. The 2022 Chicago Athenaeum Museum of Architecture & Design Good Design Award winner.
