## 12V Non-Enclosed Electronic Power Supply By WAC Lighting

## Description

Low Voltage 120V input/12V output electronic transformer designed to be used as a replacement part for factory installed transformers or installed in a properly listed enclosure. Built-in auto reset, soft start, short and overload circuit protection features. The soft start delayed start feature extends lamp life by delaying the abrupt inrush current to the lamp. All connections must be made in an enclosure for proper installations. Dimmable with electronic low voltage dimmers. Dimmers should always be installed on the primary side of the transformer. Note: 1 Watt minimum load. 60 watt option is Class 2.
