Paopao Linear Pendant

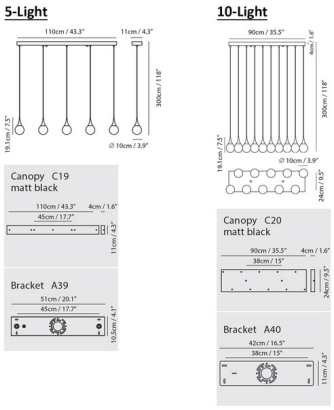

By Seed Design

Description

Like the bubbles it resembles, the Paopao Linear Pendant shows off mesmerizing effects of light and color as it reflects its surroundings and the glowing light inside. It was inspired by organic shapes and the artistry of fine jewelry, featuring elegant teardrop silhouettes composed of glass spheres with matching metal caps. The glass is hand-blown and vacuum-plated in layers to achieve its beautiful gradient. A down beam angle of 58 degrees minimizes undesirable glare while ensuring sufficient illumination. This alluring pendant elevates your space with its chic design. Built-in dimmable driver (Triac dimming).
