Sea Urchin Table Lamp

By Currey and Company

Description

The Sea Urchin Green Table Lamp is made by a group of elderly women who live at the border of Burma and Thailand. The black terracotta lamp has a moss green reactive glaze and extrusions, each applied by hand to the side of the body, that mimic a sea urchin's profile. This green lamp is truly an artisanal piece, as the surface has a mottled look that gives the impression it has spent time under water. 3-way switch on socket.

Specifications
