## Edfu Table Lamp

By Currey and Company

### Description

At first glance the Edfu Table Lamp may look like a clear lamp filled with sand, but it is instead made of concrete fused with clear composite. The joining point displays a rough texture, evoking the choppy sands of a beach. This intriguing mixed-material design is a stylish addition for living rooms, offices, and entryways. The lamp is topped with a black faux silk shade and has an on/off rocker switch.
