Caule Outdoor 120V Bollard By FLOS

Description

Taking its elegant name from the Latin word for stem, the Flos Caule Outdoor 120V Bollard embodies the graceful silhouette of a blooming flower. This exquisite outdoor lighting fixture features a gently curving stem that culminates in a cylindrical diffuser. This diffuser is available in either a sleek solid design for a clean, direct glow or an intricate nest design that casts beautifully patterned shadows, adding an artistic dimension to your outdoor space. The understated lines and versatile nature of the Caule make it an exceptional addition to any contemporary exterior. Its availability in a variety of heights, sophisticated finishes, and customizable color temperatures ensures it can seamlessly integrate into diverse landscape designs. An integrated LED module and integral electronic power supply are included for efficient performance. While the Ground Installation Box accessory is not included, it is highly recommended for securely installing the bollard into the ground, ensuring both stability and a refined aesthetic for pathways, gardens, and outdoor seating areas.
