K831 Pendant

By Midgard

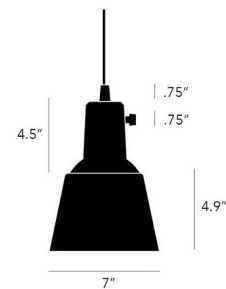

Description

Simple yet beautiful, the K831 Pendant hangs from a fabric cable and features a metal shade that swivels for adjusting light direction. Based on a rare 1930s design by German lamp manufacturer Kandem, it honors tradition by using materials and processes of those times--the shade is crafted out of spun aluminum, while the black casing is made of molded Bakelite. It is a hard-wired pendant, with a black painted steel canopy and on/off turn knob on the casing. All parts are made in Germany and hand-assembled in Hamburg. The K831 is sure to make a stylish statement in your residential or commercial space, whether installed as a single light or cluster.

Shown in black / cement grey
