Discovery Suspension

By Artemide

Description

The Discovery Suspension is an extraordinary lighting fixture, born from a philosophy of minimal geometry and magical illumination. A slim ring, available in Aluminum, Black, or Bronze, artfully houses an LED strip that injects light into a specially worked surface of transparent PMMA. The true marvel of the Discovery lies in its diffuser, composed of a perfectly transparent PMMA surface embedded with micro-particles so minuscule that the surface is hardly perceptible when the fixture is turned off. However, when the fixture is illuminated, the transparent interior appears to miraculously fill with light, as if by magic. This unique result is achieved through Discovery's innovative direct and indirect emissions, which produce an embracing and uniform light throughout the entire surface, creating an ethereal glow that envelops the space. The geometry and layout of these micro-particles are precisely calculated to ensure a constant and even emission of light across the entire surface. Dimmable via 2-wire dimming, the Discovery Suspension allows you to control the intensity of this mesmerizing light, transforming your environment with its captivating presence.

Specifications

COLOR Transparent
BODY FINISH Bronze
WATTAGE 49.3W
DIMMER Low Voltage Electronic
DIMENSIONS 27.6"W x 31.5"H
INTEGRATED LED MODULE 1 x LED/49.3W/120-277V LED

Technical Information

COLOR RENDERING 90 CRI
LAMP COLOR 3000K
LUMENS/WATT 57.51
LUMINOUS FLUX 2835 lumens

Shown in bronze / transparent
