Eclisse Special Edition Table Lamp

By Artemide

Description

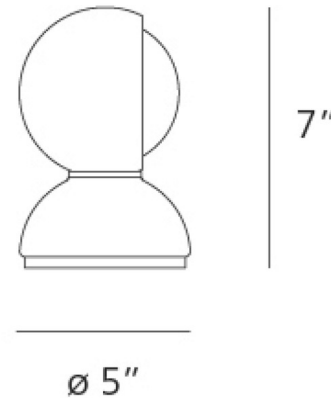

The Eclisse Special Edition Table Lamp by Artemide, designed by the visionary Vico Magistretti in 1967, stands as an undisputed icon of Italian industrial design and a recipient of the prestigious Compasso d'Oro award. This lamp is not merely a light source; it's an interactive sculpture that allows you to master your environment's illumination. Inspired by a miner's lamp carried by Jean Valjean in Victor Hugo's *Les Misérables*, the Eclisse features a brilliant mechanism: a fixed outer shell beautifully encasing a moveable inner sphere. By manipulating this inner sphere, you create the effect of an eclipse, allowing you to seamlessly transition between focused, direct light and a soft, diffused glow. This thoughtful design provides total control over light intensity and ambiance. Versatile in its application, the Eclisse can function elegantly as a table lamp or be easily mounted on a wall to serve as an adjustable accent. An on/off switch located on the cord ensures convenient operation for this timeless piece, available in various finishes that reflect its special edition status.
