La Linea Wall/Ceiling Light By Artemide

Description

The La Linea Wall/Ceiling Light by Artemide, designed by Bjarke Ingels Group (BIG), redefines architectural lighting with its unparalleled flexibility and artistic potential. This innovative fixture isn't just a source of light; it's a dynamic, flexible tube capable of freely twisting and turning, allowing for ultimate creative expression in any space. Imagine bending light to your will, forming geometric patterns or fluid, organic shapes. Crafted with an Opaque Acrylic diffuser, La Linea provides a beautifully uniform and diffused glow, eliminating harsh shadows. Its discreet Brushed Aluminum support pins are cleverly concealed, ensuring a clean, seamless aesthetic that allows the light itself to be the star. Remarkable for its versatility, this fixture is suitable for both indoor and outdoor spaces, making it an exceptional choice for continuous light installations in residential areas, commercial lobbies, or even exterior facades. A remote-mounted power supply is included, simplifying installation and maintaining the fixture's sleek profile. La Linea embodies Contemporary, Glam, Industrial, and Minimalist styles, offering boundless possibilities for illuminating and defining your environment.

Specifications
