Ocean Lounge Table

By Mater Design

Description

Originally created in 1955 by Danish designers Jorgen and Nanna Ditzel, the Ocean Lounge Table is created from upcycled plastic and is intended to reduce plastic waste in the ocean. The table is characterized by its light structure, composed of plastic slats and an open tubular steel frame. The Black and Sand tables incorporate plastic from discarded fishing nets, and the Green table contains plastic repurposed from beer kegs from Denmark's Carlsberg brewery. Suitable for outdoor use.Note: Due to the recycled nature of the materials, the appearance of each piece may vary.

Shown in gunmetal / sand

Specifications
