Wafer Round 120-277V 3000K Surface Light By Maxim Lighting

Description

The Wafer Round ELV Dim 3000K Surface Light is a low profile and energy efficient piece, perfect for any interior application. Manufactured of die cast aluminum, Wafer brings ultimate heat dissipation to its edge-lit technology. Edge lighting gives very even light distribution while dispersing heat over a larger area. The result of this is longer LED life and better light diffusion. 120/277V: 0-10V dimming. 120V: dimmable with electronic low voltage (ELV) only.
