Petite Table Lamp

By Secto Design

Description

The Petite Table Lamp features a playful and compact design with a stylish Scandinavian aesthetic. The shade is constructed from angled slats of form pressed birch and can be rotated to direct light precisely where it is needed. Small gaps between the slats allow light from the included GX53 LED bulb to peek out through the sides of the fixture. The Birch, Walnut, and White shades include a white base, and the Black shade includes a black base. On/off switch located on cord.

Shown in white / white laminated birch
