

BRAND Eurofase

DESCRIPTION

The elegant Cerissa Rectangular Stand Color Select LED Mirror features a unique acrylic cut crystal trim on its inner frame that acts as a diffuser while bringing glamour to your space. A touch sensor switch is used to turn the light on and off and to choose the color temperature--6400K, 4500K, or 3000K. Pressing and holding the switch dims the lumens. Light is directed inward rather than directly out, reducing glare, and a defogger keeps the mirror clear. This stylish, functional mirror can be free-standing or mounted to the wall, and can be plugged in or hardwired. It is perfect for bathrooms, bedrooms, dressing rooms, and entryways.
