Kubus Line Candleholder

By Audo Copenhagen

Description

Danish architect Mogens Lassen originally created his Kubus Candleholder in 1962 as a piece with a distinctly contemporary Functionalist design. In 1983, Lassen revisited his design and the result was the Kubus Line Candleholder. Composed of two candleholders connected by an angular metal frame, this piece features a modern, minimalist silhouette with an architectural feel. Note: Candles are not included.

Shown in brass
