## Ebb Swell Pendant By David Trubridge

## Description

The Ebb Swell Pendant is inspired by David Trubridge's sketches of light-play on water ripples. It features an ultra thin Finnish Birch Plywood arranged in a stunning shape. The light emits a glowing lantern effect which highlights the grain of the plywood and also casts a beautiful shadow. Ships fully assembled or as an easy to assemble Kitset to reduce shipping emissions. Includes White cord and canopy. Made in New Zealand.

Shown in birch

23"
