Lunar Table Lamp

By Jamie Young Company

Description

The perforated patterns on the curved and dimpled base of the Lunar Table lamp reflects Jaime's interpretation of the craters, mountains, and seas of the lunar landscape. While the design's celestial inspirations is subtle, the look is not! The bold and decorative patterns are created one-at-a-time by talented artisans. The lamp is topped with a linen rolled-edge drum shade in white and an acrylic ball finial. 3-way socket switch.

Shown in white / white linen
