## Soleil Pendant

By Le Klint

### Description

The Soleil Pendant takes its name from the French word for sun, and it evokes the sun's rays with its round pleated shade. The pendant features a slim-line disc shape, while wooden accents balance the modern design with warm, natural materials. The shade is available in either white PVC or Paper, handcrafted at Le Klint's factory in Denmark. A white plastic canopy is included. Soleil is available with or without Casambi dimming technology, which allows the fixture to be dimmed using the convenient Casambi smartphone app. Note: The fixture is not compatible with other, already-installed dimmer systems.
