Nut Outdoor Wall Sconce

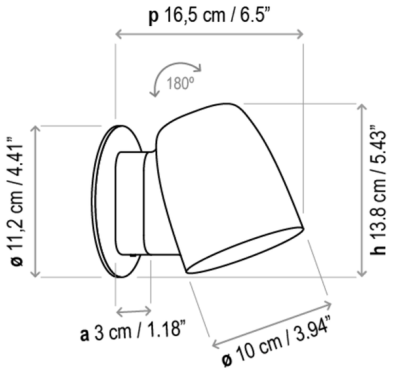

By Bover

Description

The Nut A/01 Outdoor Wall Sconce is a small-scale understated light that can stand up to wet conditions indoors or outdoors. It is crafted out of stainless steel and aluminum with a durable textured finish. A polycarbonate diffuser softens the light, and the bell-shaped shade rotates 180 degrees for light direction adjustment. This fixture is perfect for illuminating an outdoor patio or pathway or a bathroom. Three dimmable types are available: 0-10V, push button and TRIAC. The push button dimmer allows three brightness levels: 33%, 66%, 100%. Note: The included backplate mounts on a standard US junction box. It is not shown in the photos but is shown in the line drawing.

Shown in textured terracotta
