

DESIGNER Gabriella Crespi
BRAND Gubi

DESCRIPTION

Originally conceived by Italian designer and artist Gabriella Crespi in 1972, the Bohemian 72 Floor Lamp features a basket-like rattan body capped by a rattan dome with a brass accent. The body's construction allows light to escape between the pieces of rattan and create an intricate pattern of light and shadow. On/off footswitch located on cord. Note: An 8W, 800 lumen LED bulb is recommended, but not included.
