NJP Mini Table Lamp

By Louis Poulsen

Description

The NJP Mini Table Lamp provides direct glare-free horizontal light while reflecting some of the light through the rear of the head, illuminating the top of the arm. The ergonomic design of the fixture head shapes the light and gives optimal light direction. The shade is painted white on the inside, reflecting comfortable diffused light. The arm has a stationary angle of 15, and it can rotate 342 degrees around the base. The head can be tilted and rotated to direct the light. The stepless dimmer allows the light to be adjusted to a suitable level between 15 and 100 percent. Note: Supplied with a white cord for White and Soft Pink finishes, and black cord for all other finishes.

Specifications
