## Patera Oval LED Pendant

By Louis Poulsen

### Description

The Patera Oval Pendant, inspired by the Fibonacci mathematic sequence, is a glowing sphere of diamond shaped cells formed by woven ribbons of material. Each cell is carefully designed to capture light and to shield the light source from the viewing angles above 45 degrees. Below 40 degrees, the fields are open to direct light downwards. A small amount of light is also sent upwards to illuminate the ceiling.

### Specifications

COLOR . . . . . Matte White  
BODY FINISH . . . . . White
