Amari Pendant By Modern Forms

Description

The Amari Pendant is a work of art that seems to float in the air, featuring interlocking aluminum panels suspended on slim electrified cables. Light emitted through acrylic diffusers along their edges provides subtle multi-directional illumination. This pendant can be used individually or in multiples to light tables, kitchen islands and reception areas. The 13.5 height pendant is dimmable with a TRIAC or ELV dimmer, and the 32.375 inch is dimmable with an ELV dimmer.

Specifications
