Vander Color Select Vertical Wall Sconce

By Modern Forms

Description

The Vander Vertical Wall Sconce features a slim geometric silhouette composed of die cast aluminum metalwork and a woven fabric shade. With the shade and polycarbonate diffusers softening the light, this sconce brings comfortable ambient illumination along with modern elegant style to bedrooms, entryways, and living rooms. The fixture comes pre-set to the color temperature ordered and can be adjusted to 2700K, 3000K, or 3500K using a switch inside the fixture to create the right mood for your setting. It uses a driverless AC LED system and is dimmable with a TRIAC or ELV dimmer, sold separately.
