Prismatic Color Select Table Lamp By Studio M

Description

A metal dish with mid-century character is stacked with a thick textured glass shade, giving the Prismatic Color Select Table Lamp its unique layered style. The leather accent on the stem complements the shades and creates a stylish mixed-material look. An integrated LED light is concealed to reduce glare while providing ample illumination for your living room or office. Color temperature is adjustable, and a three-step touch dimmer switch is on the base. The 2022 Chicago Athenaeum Museum of Architecture & Design Good Design Award winner.

Shown in natural aged brass / clear ribbed
