Kulma Outdoor Wall Sconce

By Visual Comfort Modern

Description

With its sleek, minimal form of a single crystal panel and metal frame, the Kulma Outdoor Wall Sconce captures the essence of the ubiquitous lantern. Light traveling down from the metal base is captured at the edges of the glass, creating an intriguing display of illumination. The simple yet high-impact architectural design enhances any chic, contemporary indoor or outdoor space. It includes a universal driver, dimmable with a TRIAC, ELV, or 0-10V dimmer. The Natural Brass option features a living finish that will patina and warm with age, enhancing its richness. If the patina becomes uneven or spotty, a brass cleaner can restore the finish.

Specifications
