Phobos Linear Wall Sconce By Visual Comfort Modern

Description

The Phobos Linear Wall Sconce exudes chic contemporary design, featuring sleek, slim tubes of light complemented by a metal frame. The borosilicate glass tubes contain laser-etched light guide channels, diffusing LED light for ambient illumination and making a stylish statement. This sconce can only be mounted vertically. A universal driver is included, dimmable with a TRIAC, ELV, or 0-10V dimmer. The Natural Brass is a living finish that will patina over time, developing warm character. If the patina becomes uneven or spotty, a brass cleaner can restore the finish. Note: Requires a 2 x 4 inch junction box in the vertical position (backplate width is 2.6 inches).
