Wythe Chandelier

By Visual Comfort Modern

Description

Combining industrial elements with a raw expression of glass, the Wythe Chandelier features a brass-plated aluminum frame supporting rounded slabs of cast glass. As light shines through the glass, bubbles and imperfections from the casting process are highlighted for a natural aesthetic. This distinctive piece makes an artistic statement in a living room, foyer, or over a dining area. A universal driver is included, dimmable with a TRIAC, ELV, or 0-10V dimmer. Note: The 15.7, 39.3, and 47.4 inch wide chandeliers require a junction box rated for fixtures weighing over 50 pounds.

Specifications
