DESCRIPTION

The Oplight Wall Sconce proves that technologically advanced products can be made with respect for the environment. This future-proof fixture is assembled without glue and can easily be taken apart for parts replacement or for recycling once the light will no longer be used. Its frame is made of die-cast aluminum and light is emitted through a polycarbonate diffuser. An exercise in simplicity, the Oplight has a versatile design that complements many interior styles while delivering plenty of ambient light. Available in two sizes: 8.7 inches wide (known as W1) and 11.5 inches wide (W2). W1 option includes a backplate to cover a US junction box (shown in images). W2 backplate is large enough to cover a US junction box.

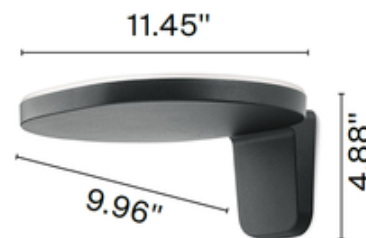

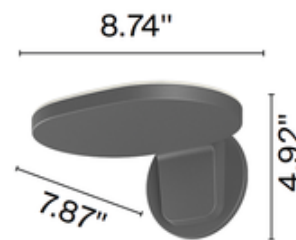

SHADE COLOR	N/A
BODY FINISH	Textured Anthracite
WATTAGE	16W
DIMMER	Low Voltage Electronic
DIMENSIONS	8.74"W x 4.92"H x 7.87"D
