Bellhop Outdoor Bollard Light

By FLOS

Description

Inspired by the endearing figure of a hatted hotel porter, the Flos Bellhop Outdoor Bollard Light offers charming illumination delivered with contemporary style, designed to enhance landscapes and architectural features to create beautifully inviting environments. LEDs discreetly housed within the lamp head shine through an opal optic diffuser, ensuring smooth, homogenous lighting that provides both functional guidance and atmospheric ambience. The Bellhop Bollard's robust painted finishes are specifically exterior-rated epoxy polyester powder coats, guaranteeing superior strength and exceptional resistance to heat and UV radiation, ensuring the fixture maintains its pristine appearance through changing seasons. An integral non-dimmable LED driver is included for straightforward, reliable operation. Available in two versatile heights—a compact 15-inch (Bellhop Bollard H 380) and a more prominent 33.5-inch (Bellhop Bollard H 850)—this bollard seamlessly integrates into diverse outdoor schemes. Please note that the concrete base plate is sold separately, providing a sturdy foundation for this stylish and durable outdoor luminaire.
