DESCRIPTION

The Camouflage Outdoor Wall / Ceiling Light blends seamlessly into nature with its ultra-slim profile and natural tones. When it turns on, it evokes a magical solar eclipse as a halo of light shines behind the solid disc. Its stylish, versatile design and wide selection of finishes make it the perfect solution for walkways, courtyards, and other outdoor spaces of many design styles. The stone finishes are made of fiberglass-reinforced cement mixtures, while the painted finishes are exterior-rated epoxy polyester powder coats that provide superior strength and resistance to heat and UV. The Primer finish is suitable for painting after installation with any water-based exterior paint or stucco. Two sizes are available: 5.5 inch diameter (Camouflage 140) and 9.5 inch diameter (Camouflage 240). Note: A power supply is included and must be installed in a remote location.

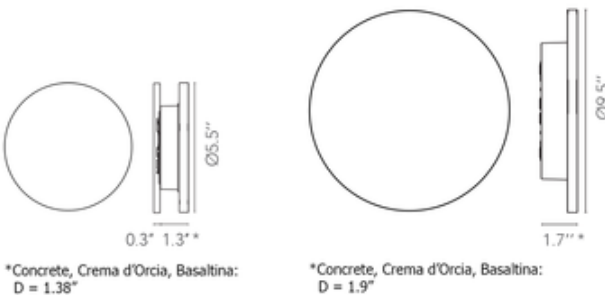

Shown in: White
