Simon Plug-In Wall Sconce By Lark

Description

The Simon Plug-In Wall Sconce makes our hearts beat a little faster thanks to its retro mix of midcentury modern style, adjustable metal shade and arm, and a rich finish that pops against the luxe backplate and accent detailing. The articulating arm can swing left or right and the shade can be adjusted up or down. This petite 1-light sconce features an on/off switch on the backplate and can be hard-wired or mounted with a black fabric-covered cord. Mounting hardware is hidden on the backplate to ensure a clean silhouette.

Shown in heritage brass / black
