Tube Alarm Clock

By LEFF Amsterdam

Description

The Tube Alarm Clock was designed with its dial as an extrusion ring. Extrusion molding is a design technique that involves forcing materials through a mold, the extrusion profile is what gives the material its shape. Piet Hein devised a ring like that for the design of the clock face. It is the idea of keeping things normal and down-to-earth, but still extraordinary. The alarm and snooze function are situated in the back of the Tube to not disrupt the design. Includes LR44 battery.

Shown in steel

Specifications

COLOR	Steel
BODY FINISH	N/A
WATTAGE	N/A
DIMMER	N/A
DIMENSIONS	1.97"W x 1.97"H x 3.15"D
BULB	N/A
COUNTRY OF ORIGIN	Netherlands
