# Sunnata Switch

By Lutron

## Description

Use the Sunnata Switch for non-dim applications of lighting and small motor loads. For use with incandescent, halogen, MLV, ELV, LED, fluorescent, CFL, or motor loads. Rocker switch turns lights/load on and off. Locator light glows for finding it in the dark. Can be used in single-pole, or in 3-way or 4-way applications with up to 4 matching companion switches (Lutron ST-RS, sold separately) for a total of up to 5 control locations. Not compatible with mechanical switches. Neutral wire required. Rated for 6 amps for lighting, 3 amps for motors. Note: Wall plate sold separately.

Shown in gloss white
