

BRAND Lutron

DESCRIPTION

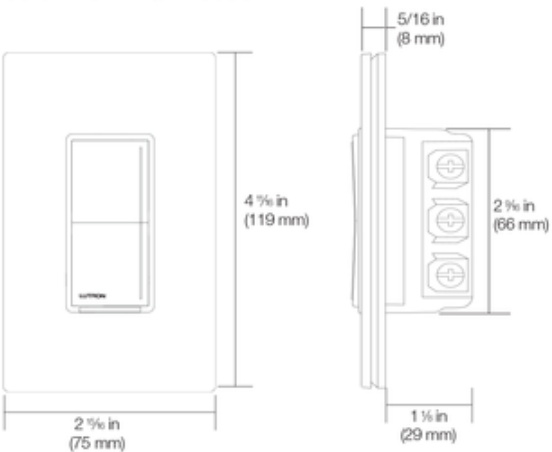

Easily control your lights from multiple locations using this Sunnata PRO Companion Touch Dimmer, designed for use with the Lutron Sunnata PRO LED+ Touch Dimmer ST-PRO-N. Touch or swipe the light bar to dim or brighten your lights. Use the rocker switch to turn lights on and off. Lights gradually fade on and off for comfortable eye adjustment. Light bar glows for finding it in the dark. For 3-way or 4-way applications. Up to 4 companion dimmers can be linked with one main dimmer (ST-PRO-N) for a total of up to 5 control locations. Screw terminals make wiring easy. Rated for 8.3 amps. Looks identical to the main dimmer for a consistent, stylish aesthetic. Does not work without dimmer ST-PRO-N. Note: Wall plate sold separately.
