InterBeam Outdoor Accent Light

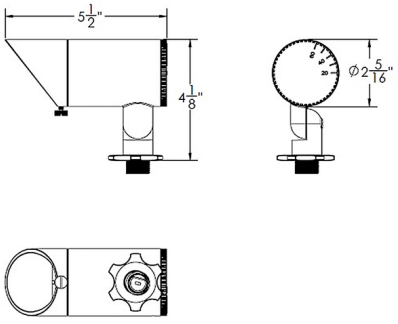

By WAC Lighting

Description

The high-performance InterBeam Outdoor Accent Light boasts a versatile adjustable beam of 20-60 degrees, making it the perfect spot light for uplighting architecture, trees, and landscaping. Its pivoting knuckle and 360 degree rotatable glare guard provide further adjustment. The beam can be set to the indexed angles of 20, 35, or 60 degrees, or to any angle in between. Made of a corrosion resistant aluminum alloy, the compact, efficient body has fins that draw heat away from the LED light engine. Includes a mounting stake, detachable shroud, 6 ft lead wire and direct burial gel-filled wire nuts. Provides constant output for 9V-15V input. A low voltage magnetic transformer is required, sold separately. Note: The 6W lights are only available as 12-packs.

Shown in black / clear

Specifications

COLOR	Clear
BODY FINISH	Black
WATTAGE	3W
DIMMER	Low Voltage Magnetic
