## Imperial Long Neck Vase

By Currey and Company

### Description

The Imperial Long Neck Vase is a decorative vase that has its roots far in the past. The Imperial label is apropos for the porcelain vase because this piece is made of clay sourced from the area surrounding the kilns that produced objects for the Imperial estate during the heyday of the dynasties. The formulas to achieve the particular color on this vase's surface is a secret one guarded by ceramicist families devoted to the single color. The bright color was originally produced to represent the Emperor in the Forbidden City.
