Koji Credenza

By Currey and Company

Description

The Koji Credenza, designed by Barry Goralnick, has a serene presence with its curved sides and feet that emulate calligraphy shapes found in Asian characters. The four doors and inset top are covered in cream faux shagreen, while the beechwood surrounding them pleasantly contrasts in an oyster gray finish. The squared-edged brass pulls have a brushed brass finish to add character to the rectilinear elements. The interior of the gray credenza is fitted with two adjustable shelves and has a pair of cable hole ports for cord management.

Shown in brushed brass / oyster gray / cream

Specifications
