Saisei Chandelier By Currey & Company

Description

The Saisei Chandelier, envisioned by Hiroshi Koshitaka, as one of a number of fixtures that fulfills the concept that encompasses the acts involved in regeneration and reproduction as we restore, revive, and experience regrowth and rebirth. Rattan flows artfully around a spiral wrought iron frame in a khaki finish, which is tonally in sync with the natural color of the material. The otherworldly shape of this rattan chandelier was inspired by outer space galaxies in the universe come to light.

Specifications
