Brownell Ceiling Light

By Currey and Company

Description

The Brownell Ceiling Light has a mix of warmth and brightness. The warmer tones are created by the Kraft paper twine woven around its circumference, and the blacksmith finish on the metal that mounts it to the ceiling and finial that fastens the acrylic diffuser to the bottom. The diffuser will create an even glow when light wafts through it. The pale, sleek material is the contrasting element to this design.

Shown in black / natural / white
