Il Pezzo 6 Round Table

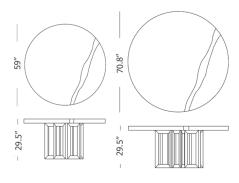

By Il Pezzo Mancante

Description

The II Pezzo Round Table features a solid block of walnut held up by what seems to be a casually arranged group of glittering legs. The tabletop is made of thick solid walnut that is gently crossed by a vein which reminds a majestic river, made of solid ash or solid wenge. The treatment on the wood is done with natural oil that protects the wood but at the same time allows it to breathe, and the final coat is done with Nanotechnology, an organic silica-based natural treatment which makes the wood water repellent. The adjustable legs are made of hand-welded brass, available in different finishes. A small brass cylinder containing the serial number is inserted in every piece to seal the authenticity and uniqueness.

Shown in gold / walnut / ash
