Sacramento Plug-In Wall Sconce

By Troy Lighting

Description

The Sacramento Wall Sconce makes a bold statement while keeping a low profile. A simple metal shade is mounted at the end of a long, sweeping arm creating a design that is visually appealing without taking up a lot of space. With the shade open at both ends, the wider opening at the top allows light to spread freely above while the narrower bottom opening funnels more direct light downward. Patina brass combines with either a soft black or soft sand finish to give the fixture a natural beauty. On/off switch on cord.

Shown in patina brass / sand

Specifications
