Ponte Mini Chandelier

By Visual Comfort Modern

Description

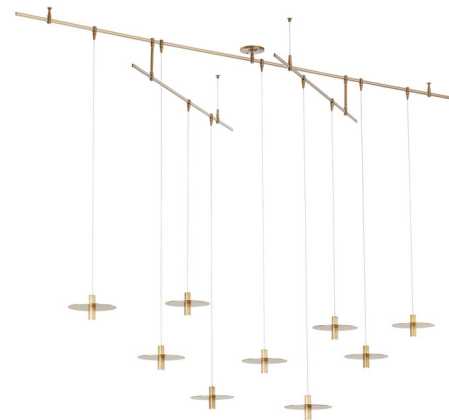

Inspired by the Ponte skyscraper in Johannesburg, each hanging element on the Ponte Mini Chandelier is a sleek cylinder light that emits a punch of downward illumination. Flat discs paired with the cylinders create depth and a sense of balance. This fixture is a versatile monorail-like low voltage system where the lights can be added, removed, or moved around to customize the arrangement. Use it to make a modern statement in dining rooms, lounging areas, or offices. Two power supply (transformer) options are available: Remote: Includes an ELV power supply to be installed in an accessible remote location. The low-profile canopy offers a minimal look. Surface: Includes an ELV power supply located in the canopy.

Specifications

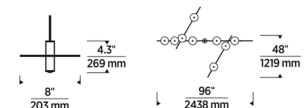

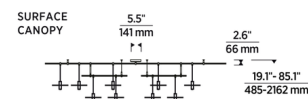

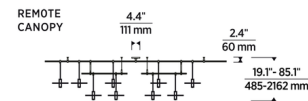

COLOR N/A
BODY FINISH Natural Brass
WATTAGE 81.9W
DIMMER Low Voltage Electronic
DIMENSIONS 96"W x 4.3"H
INTEGRATED LED MODULE 9 x LED/9.1W/120-277V LED
