Monorail Mini ELV Surface Transformer 12V By Visual Comfort Architectural

Description

The Monorail Mini ELV Surface Transformer is designed for use with the Visual Comfort Modern Monorail system. Its small housing offers a minimalist look, and it can be used with 3 inch or greater standoffs and a power extender. It is compatible with LED and halogen 12V pendants and heads, with a 250W capacity for standard halogen/LED lamps and 75W for integrated LED modules. It can power up to a 60 ft run of Monorail when fed from the center. Mounts to a standard 4 inch junction box with a round plaster ring (not included).

Shown in satin nickel
